

LAURESH™ (Laurel Leaves Extract)

Scientific name : *Laurus nobilis*
 Common name : Bay leaf, Laurel
 INCI name : LAURUS NOBILIS LEAF EXTRACT
 Traditional Use : Spices, and Relief of diarrhea, rheumatism & asthma

The features of LAURESH™

Anti-Bacterial

Reduce
Periodontitis

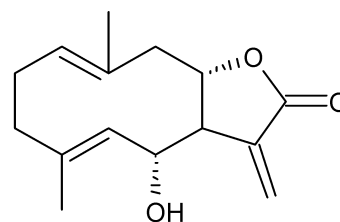

Improve Salivary
pH Buffering

Reduce Bad Breath

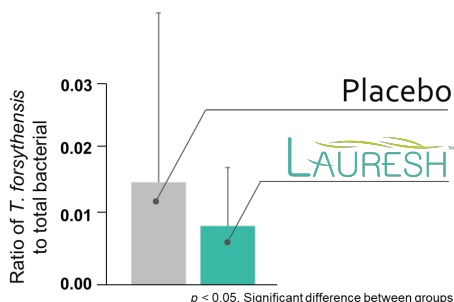

- Standardized with $\geq 1.0\%$ deacetyl laurenobiolide
- Clinically-proven **Efficacies** & Robust **Safety Studies**
- **Patented** ingredient
- **Edible** oral care ingredient
- Improve both **oral and gut microflora** (in vivo)
- Alleviate **hangover symptoms** (monitor test)

Deacetyl laurenobiolide

Clinical Trial & In vitro

Anti-Bacterial

Clinically Effective
in reducing *Tannerella forsythensis**

*Bacteria associated with severe forms of periodontal disease

Effective against **Periodontitis-**
and **Cavities-causing bacteria**#

- *Tannerella forsythensis*
- *Porphyromonas gingivalis*
- *Actinomyces viscosus*
- *Aggregatibacter actinomycetemcomitans*
- *Prevotella intermedia*

- *Streptococcus mutans*
- *Streptococcus salivarius*
- *Streptococcus sangius*
- *Streptococcus mitis*

#Effectiveness against listed bacteria is tested *in vitro*

PHYTOCHEMICAL

2508

Clinical Trial

Reduction of Periodontitis

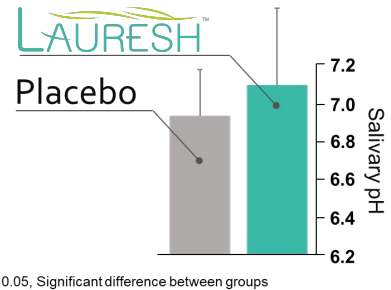

Improves **Gum Health** by reducing gingival inflammation

Clinical Trial

Improve Salivary pH Buffering Function

Higher salivary pH reduces enamel demineralization - **Stronger Teeth**

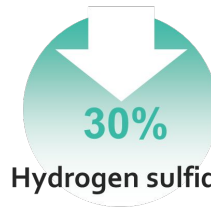

Monitor Test

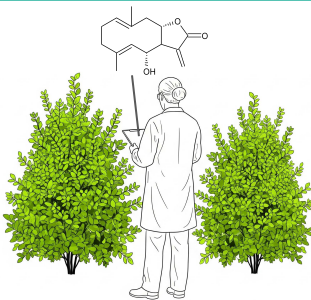

Reduction of Sulfurous Compounds

Suppress **Bad Breath & Inflammation** causing sulfurous compounds

Carefully Selected Laurel Leaves

LAURESH™

Made from **selected Laurel** with high **Deacetyl laurenobiolide** content

Recommended dose

108 mg/day
